School Profile Buckingham

The Buckingham School is a co-educational **bilingual school** founded in 1983 providing preschool, primary and secondary education. Since its foundation, it has been growing steadily receiving most of the students in pre-school and maintaining small groups. The school is **accredited by the Colombian Ministry of Education** and **by CIS**. It is one of the **only thirteen schools in Colombia certified with the three IB programs: DP, MYP, and PYP Program**. It was the **first school in Bogotá** to obtain the **ISO 9001** quality certification, and the first school in **Latin America to achieve the Lighthouse Certification by implementing the program Leader in Me**, with fidelity and excellence. There are 400 students enrolled from PK to 11th Grade. Students are drawn mainly from families in business or professional areas. Approximately 80% of our students are Colombian and **20% are from different nationalities**. Following graduation, 100% of our students attend four-year institutions. All students in the high school are required to take the same core curriculum. Students are not ranked because of the small size of each graduating class.
